

Help us understand age-related memory changes in Latino adults!

If you:

- Are over 55 years old
- Speak Spanish and/or English
- Do not have any memory problems

**You might be eligible for an aging study and receive up to
\$700 for your participation!**

Massachusetts General Hospital (MGH) and the Boston Latino Aging Study (BLAST) are looking for volunteers for a research study!

If you are interested, please call: 617-643-5880 or email mapp@mgh.harvard.edu for more information.
